Lingua german

Il ha 1 modification in iste version que attende revision. Le version stabile ha essite revidite le *5 junio 2019*.

Le **germano** (in le lingua ipse *Deutsch*) es un lingua indoeuropee pertinente al gruppo del linguas germanic occidental. Illo es cognate al lingua anglese, lingua saxonic antique, lingua saxonic, lingua frisian, lingua nederlandese, lingua alemannic e al yiddish (judeogermano). Es tamben un del linguas plus importante del mundo e le que ha plus parlantes native in le Union Europee.

Illo es parlate principalmente in Germania, Austria, Liechtenstein, in territorios de Switza, in duo territorios del provincia del Tirol del Sud in Italia, in le pauco cantones del est de Belgica e in alcun villages frontieras del contato de Jutlandia meridional (Nordschleswig) in Danmark.

In Luxemburgo, assi como in le regiones francese de Alsacia e Lorena, le populationes native parla dialectos german, et alcunes domina le germano standard (specialmente in Luxemburgo), anque in Alsacia et Lorena le francese ha reimplaciate significativemente le dialectos german local durante le ultime quaranta annos.

Le germano es assi studiate super le mundo como un lingua straniere.
